certified to
**250km/h
(155 mph)**

3-3751-ER

3-3751-x-M magnetic mount with
coiled lead and switched fused plug

3-3751-A-M with 3-0989 coiled
lead with fused euro plug

Additional features:

- Long life, maintenance-free operation - working life in excess of 50,000 hours
- Built-in flasher with up to 24 flash patterns
- When operating in cruise mode, activating flash mode overrides cruise mode and restores full power flashing

Materials:

- Lens: strong UV stabilised polycarbonate
- Base: rugged cast metal

Mounting options:

- Permanent, magnetic, DIN, pole and suction mount
- Magnetic mount versions feature 34kg magnets with moulded rubber base covers to preserve vehicle paintwork. Independently wind speed certified to 250km/h (155mph)
- Suction mounted units are held firmly in position by three powerful, heavy duty, lever operated suction pads

Voltage:

- 10-40V supply - suitable for 12 or 24V use

R65 approvals:

- -F versions Class 1 blue (with rotating flash patterns)
- Class 1 amber, Class 2 blue, Class 2 red (without rotating flash patterns)

CAP 168 (Type C) compliant version
available, suitable for airside operations
